World Polio Day 2022 and Beyond: A healthier future for mothers and children.

I took a moment to search the net on the current Polio situation and was alarmed to find these statistics on a Nigerian Facebook page. It has been difficult during the pandemic to continue vaccinations in countries of concern, the US is amongst 30 countries now with outbreaks. **The fight is not over!**

Happy birthday to Judi for the 4th!

“It is not better nor worse...

It’s just different..”

Joan Ducarme is our outbound exchange student for 2023. He spoke to us recently about what he has discovered of his host town, and even his first host family.

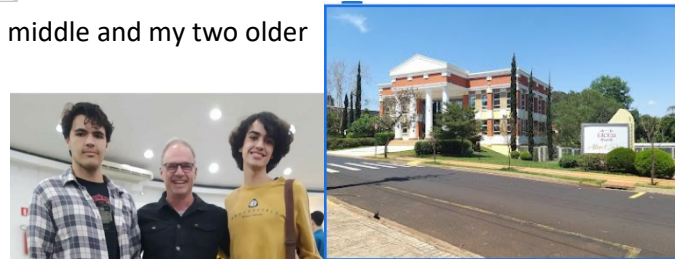

to travel this year. He was excited to learn that in January he will be going to the State of Sao Paulo in the south east of Brazil. His home for his exchange year will be Ribeirao Preto which is in the north of the state of Sao Paulo. Ribeirao Preto has a population of 700,000 people and is a well known university city in Brazil.

“I already made contact with my first host family. My father Andre in the middle and my two older

Joey is no stranger to relocation. He told us he was born in France, in the city of Montpellier on the Mediterranean in 2008. That is why he and his family speak French at home. When he was 4 years old they left France for Australia. They settled in Dee Why on the Northern Beaches, but have been living on the Central Coast for five years now.

There have been many forms, quizzes and interviews for Joey to be accepted into the Rotary Youth Exchange Program—one of only four students from our district

brothers Leonardo and Felipe seem really nice and are very excited to meet me next year and

show me around. I have created a WhatsApp group with my Brazilian family, and I am looking forward to meeting and learning about them and their culture. Next to my family you see the private school I will be attending. I understand that my family lives a few blocks away from my school so hopefully I will be able to walk there.

I would like to once again, thank the Rotary Club of The Entrance for sponsoring me for the rotary youth exchange next year. If you have any questions just let me know. Obrigado. Thanks.”

Abuse of the Elderly

In late September Joe Scicluna & myself attended a seminar at Mingara organised by Legal Aid NSW (Gosford Office) which focussed on the subject of Abuse of The Elderly. Attendees were mostly professionals from the Homecare Industry (including Nurses , and providers of home care services)

It was stated that whilst Domestic Violence now received much more focus than it did 20, or even 10, years ago that Abuse of the Elderly received little publicity except for some extreme cases.

An Elder Abuse Prevalance study conducted in 2020/21 estimated that up to 15% of the elderly had experienced some form of elderly abuse in the previous 12 months. It was found that psychological Abuse was the most common followed by financial abuse & Neglect. Thankfully physical abuse was much less common and formed under 10% of complaints.

It is important to understand what could amount to these forms of abuse of an elderly person (most commonly someone over 80 with limited mobility & with some short term memory loss)

Psychological Abuse-mainly verbal abuse but also preventing access to friends & family& preventing or restricting access to supports/services (people who could provide care but who could also report on signs of neglect!)

Financial abuse- mainly financial exploitation, misuse of Powers of Attorney, restricting access to the elderly persons funds or using them for their own purposes without telling them. (In the worst cases carers, often children or grandchildren, often with financial problems or with a drug or gambling addiction had used all the old person's funds and built up debt which resulted in the elderly person losing their house and becoming homeless).

Neglect-Failure to meet a person's support needs, medical neglect or inadequate food, clothing or warmth.

Who are the most common abusers? – regrettably if the elderly are still living at home they are usually close relatives , often children or perhaps younger siblings or grandchildren who may have moved in ostensibly to care for the old person but have increasingly focussed on meeting their own needs (often but not necessarily feeding a drug or gambling habit or covering financial problems.)

A snapshot of reported allegations in NSW in 21/22 noted Psychological 1898 (21%), followed by financial 1208 (26%), fi& neglect 1059 (22%) with physical 336 (7%)

This is considered to be the “tip of the Iceberg” as many cases remain unreported as the Elderly person does not have the mobility or confidence to raise concerns themselves. Most

reports are lodged by other family members or by health or social workers who , even with limited access, have seen that things are not right.

Tackling The Problem

The Aging & Disability Commission (ADC) was set up in 2019 (Ageing & Disability Helpline – 1800 628221 (mon to fri 9-5pm) General Enquiries 02 4904 7500 www.adc.nsw.gov.au

Legal Aid NSW have an office in Gosford – tel 02 4324 3611

Comment: Legal aid in Gosford help organise the Seminar. They **are listed in our Community Services Directory** & when I checked their entry they made the point that whilst legal aid to run court cases is means tested that they are always happy to give free advice to anyone but especially the Elderly and Disabled

I will bring some of their cards to our next live meeting but think it is worth noting that the card is headed “**everyone deserves respect**” & then lists four rights:

- To control & access your own money
- To attend appointments without (or with) another person
- Choose to see family & friends when they wish
- Have easy access to clean clothes, food, and medication

It then asks “**are you ok**” and asks six simple questions which indicate potential coercive control or abuse

Comment :Those of us that have had exposure to care of elderly family members know how challenging the two way relationship can be & how some elderly relatives resist the offers of outside help as they fear “the authorities” will take them from their homes and place them in an institution. Many children provide essential support in helping them stay in their own homes. Yet for some elderly people with dementure the child who provides the day to day support may be resented whilst the children who live further away can be favoured. Any situation that involves family members can be very complex & often goes back to how the parents treated those same children when they were growing up.

The **A.D.C** notes that in Australia we have some 3.8m people over the age of 65 and that is estimated to more than double to 8.8m over the next 25years

The Challenges of responding to cases of Elderly Abuse are only likely to get bigger in years to come.

ROTARY CLUB OF THE ENTRANCE

Mr DAVID MEHAN (The Entrance)—I rise to acknowledge the Rotary Club of The Entrance, which is celebrating its 50-year anniversary, and congratulate them on the myriad of community projects they have accomplished in that time.

The Rotary Club has fulfilled a variety of community projects since its establishment in 1972. Among many is the beautification of Saltwater Creek Park at Long Jetty which has been renamed Rotary Park, as well as initiated the erection of a pathway linking the retirement village at Killarney Vale with Councils cycle way.

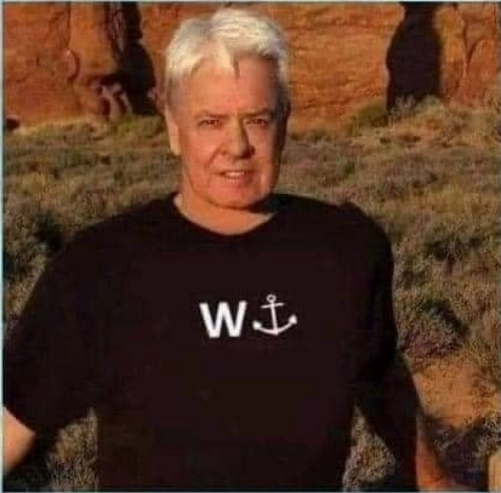

The Rotary Club has also contributed to Gosford Hospital Rotary Lodge and provided support for many charity programs and welfare agencies, including Camp Breakaway at San Remo, Meals on Wheels, Aspect School for children with Autism, Central Coast Kids in Needs and the Coast and Country Primary Care HOTS team.

These are just some of many projects undertaken by the club over the last 50 years, and on behalf of The Entrance community, I would like to sincerely thank The Rotary Club of The Entrance for all they have achieved in our community. Thank you.
